

IIT-JEE|NEET|FOUNDATION

DISTANCE COURSES: 2019-2020

For Engineering Entrance Exam

(IIT-JEE Main & Advanced)

Engineering One Year Distance Programme for IIT-JEE (Main & Advance)

Students of Class XII & Class XII Passed Out

The course will start in April 2019 and will end in April 2020

Eligibility Criteria:

This course is designed for the students who are studying in class XII and for class XII passed out.

Course Details:

- **PROGRAMME OBJECTIVE:**

This course is designed for the aspirants who are keen to pursue their career in JEE (MAIN & ADVANCED) but unable to continue Aims classroom programme due to a communication problem. However, this course will be advantageous for those candidates who can continue their coaching from home as Aims offers this course in offline mode keeping in mind the numerous students living in a remote area. As Aims believe in quality teaching, there also remains optional monthly doubt clearing class to coordinate with its study materials and mock test series. Any query will be entertained with high priority and direct one to one interaction for better understanding.

❖ COURSE HIGHLIGHTS:

- STUDY MATERIAL:

The 6 set of books per subject which will be couriered by Aims immediately after admission contains most advanced and properly arranged daily practice problems and according to the prescribed syllabus of JEE(Main & Advanced) with a complete errorless solution to raise students' preparation level to the vertex.

- Continuous Evaluation Test Series(CET's):

10 sectional tests for 1 year Distance Programme, strictly based on the latest syllabus and recent exam pattern of JEE. Authentic solutions to each problem will help the students understanding problem with the crystal clear idea.

- Backup Class:

After each Mock test, there will be a special doubt clearing class arranged where students can discuss their problems with respective faculty in a very student-friendly session.

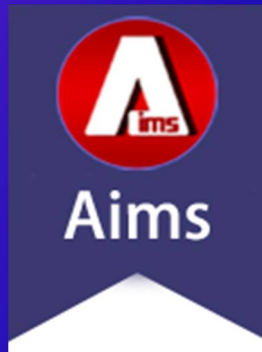

- Phone Support:

Furthermore, students will be also supported by faculties over the phone which is a subject of the request and appropriate timing.

- Affordable Fee:

As this course is designed keeping in mind the needy students, the course fee will be nominal and very much relevant to market available courses.

** Discount for meritorious Students having financial difficulties on providing sufficient documents supporting the cause.
